

# Guidebook maintenance 3B, 3D, 5B2

# Assessment of NECD review process

- Identified some errors and omissions in 3B and 3D
- Need for clarification
  - Renaming and rewording
  - Clarification of units
- Most can be readily incorporated in forthcoming EEA funded project
- PM emissions from field operations
  - Inconsistent
  - Lack up-to-date data
  - No current solution

## EEA funded project

- Precise work plan to be agreed
- Need to update 3B and 3D
  - Correct errors/omissions identified by NECD review
  - Emission factors for  $\text{NH}_3$  emission from manure
  - Adjustments to  $\text{NH}_3$  emission factors for N fertiliser
  - Assumptions concerning activity data for  $\text{NH}_3$  emissions from N fertilisers
  - Link to 5B2
  - PM emissions from field operations?
- Continue revision of 5B2
  - Improve emission factors
  - Link to 3B and 3D
- Revision and testing of Excel (or other) tool for calculation of emissions of N gasses from 3B, 3D and 5B2
