

# Task Force on Emission Inventories and Projections

## Draft Workplan 2016 - 2017

TFEIP co-chairs: Chris Dore, Martin Adams and Kristina Saarinen

# 1. TFEIP Workplan – Standing Items

## **On-going technical support/coordination**

- This will be provided to Parties and other parts of the CLRTAP.

## **The workplans of the EPs**

- These will be included in the TFEIP workplan.

## **Annual TFEIP/EIONET Meeting (& workshop)**

- The arrangements for 2017 are to be arranged.

## **Communications and outreach**

- With technical experts, Parties, other parts of the CLRTAP and other relevant organisations/groups.

## 2. TFEIP Workplan – Technical Activities

### Science

#### Publication of Updated Guidebook Chapters

- TFEIP/EEA will finalise and publish the updated “2016” Guidebook chapters.
- Recommendations will be passed to the EMEP SB.

#### Definition of PM

- TFEIP will support CEIP in designing and issuing a questionnaire for Parties to gather information on PM emission estimates (and hence improve transparency regarding condensables and semi-volatiles).
- Develop a new Tier 1 methodology for domestic combustion, that is technology specific.
- Draft a guidance document on condensables and semi-volatiles.

## 2. TFEIP Workplan – Technical Activities

### **Update the prioritised GB maintenance and improvement plan, and other improvement activities**

- This to be used to steer the use of the EMEP budget, and for attracting other funders.
- Not limited to Guidebook improvements.

## 2. TFEIP Workplan – Technical Activities

### Party Support

#### CLRTAP Outreach Activities

- TFEIP will engage with Parties and support the activities of the CLRTAP as resources allow.

#### Driving Improvements

- TFEIP to target improving completeness (and transparency) in the short-term by liaising with selected Parties.
